EXTRATERRESTRIAL CONTACT: ANÉEKA OF TEMMER: MIX OF CONVERSATIONS (TAYGETA - PLEIADES)
Published 28 June 2020 by Cosmic Agency, Gosia

22 MAY:

Gosia: Aneeka, before you were saying that you were going to leave too, like some other races that have left. When are you going to leave?

Anéeka: We don't have a date, but Alcyone's council has already told Alenym that this ship is now backed by them, as their eyes and ears to see what the rest of the Federation does. We still have work here.

Gosia: Another thing. In your interview that we recently uploaded, you said: "I came here to see the Ascension from the orbit." But now we understand that it is not really known what the Federation wants for humans. So ... when you came here to orbit, what exactly was the mission? What did they tell you?

Anéeka: I thought I would see an ascension. But now I understand that it was propaganda from the Federation.

Gosia: But where did this idea of ascension come from? So they make propaganda within their own races that belong to Federation? For what?

Anéeka: Yes, we were told that. And many races still believe it. We believed it too. Until Yazhí told us everything.

Gosia: But for what purpose do they say this?

Anéeka: So we can be here helping them. How? There are many things that each ship does or did. Waking up starseeds. But... waking up to what exactly? I really don't know at this point. But obviously it is something that suits the Federation for its agenda. That we awaken people to the reality of ET presence. It is the question for Yazhi.

Gosia: But how does the topic of the galactic energy that makes everything go up in frequency fit in here?

Anéeka: The fact that the center of the Galaxy is emitting waves is something that has always been, but it is true that these days it is especially strong as we have seen and felt from here.

Gosia: And reactors on the Moon failing?

Anéeka: They are, but as Yazhí explains, that is inconsequential now. She says it has nothing to do with reactors anymore. That 3D depends only on the perception of people on Earth. Within that place, 3D Earth, the dominant perception frequency is that of ordinary humans. What the Federation wants is to modify the perception of humans to what is convenient for them. It is pretty obvious to me that if they control everything, then they will move things to what they think is best.

Gosia: One more thing Aneeka. From your perspective. Not Yazhi Swaruu, what is "liberation" now? How do you understand it?

Anéeka: The Federation races working here now, yes they believe in a "liberation" and talk among themselves like that. This ship is no longer of the same opinion as before. We no longer see any liberation.

We only see that they are changing the dynamics of existence on Earth, that's all.

Gosia: Exactly. So why do they talk like this among them, about liberation?

Anéeka: Because it is useful to manipulate themselves among themselves, perhaps. Or because liberation or by liberation they mean taking the Satanists out of control. Manifested by humans. That´s why the "war".

Gosia: Maybe because it is compartmentalized and some of them really think they are contributing to the liberation? I'm talking about ETs.

Anéeka: Yes, many do believe that there is liberation. But I am sure it is because what they mean by that is to get the Illuminati Satanists out. Free the Earth from those, not from the Federation's influence and control over Earth.

Gosia: And who is New World Order? Satanists or the other side?

Anéeka: From what I understand, the NWO is a version that means one Government, one Religion and one Currency. And it can be seen as negative if it is under the control of the Satanists or something positive if it is under the control of the Federation. That is, in both cases there is "NWO". For the Federation, and because they say it all the time, the solution to the problems of the Earth is to implement the NWO (One Government, One Religion and One Currency.) Because this way the human "clans" do not fight one another.

Gosia: But NOT under Satanists, yes?

Anéeka: Not under Satanists who want NWO alike. But NWO under Federation. We must also remember that from here 5D, the Federation does not tell us everything, it filters information. And there is a lot of politics too.

Gosia: But you as a Federation, don't you have the right to all the information, free? By right?

Anéeka: Yes, by right, that's why Alenym is so angry. And she even moved it the Council of Alcyone.

Gosia: And who supervises them? The Federation? Apart from the etheric Federation?

Anéeka: It is a large body that has supervisors, as in specific control bodies, such as Internal Affairs. Only them. And, by stepped councils above, from wider spatial regions, as it always is. I speak of the 5D Federation. Above I do not know, only Yazhí knows!

27 MAY

Robert: You had commented that the Aghartians had problems with reptiles. In what situation are they now? How is their relationship or communication with the Federation now?

Anéeka: They are in contact with the Federation, but they continue with their own problem dynamics, also involving Reptiles since they share life and space under Earth. They are known to coordinate directly with the Federation.

Robert: How is the regressive reptiles situation now due to all this war that is going on in the dumbs? Are they still allied with the satanic cabal faction?

Anéeka: Yes, they are still allied with the Regressive Cabal. From below they control the Regressive Cabal itself. When the regressive Cabal falls, it means that they have fallen, it goes hand in hand.

Robert: You have explained that reptiles are extracted live. What do Alpha Dracos do with the reptiles they extract? How do they keep them alive? Where are they taking them? What are the Alpha Dracos involved in right now? How is their relationship with Taygeta?

Anéeka: We know they take them away. They just say they are taken to their worlds to community services or to prison based on their crimes. Others say they are taken out of this universe, they do not specify where. Relationship with the Alpha Draco right now is cordial, but only that. They are not in constant contact with Taygeta.

Robert: What position do positive reptiles have here, not only Alpha Dracos but those on Earth? Those that are positive? What are they doing? Where are they?

Anéeka: The positive Reptiles themselves are either controlled opposition of the negatives or "civil" factions of little political power within the reptilian community at large, somewhat like conspiracies followers for humans, but in Reptile society. It's the same there. I speak only of positive reptiles on the planet.
An example of this is the faction that controls Q anon, Trump and others from the same line of thought, that we hope do work or can cause something in favor of humanity.

Robert: How are the dumb wars going? Is it true that there are many human and extraterrestrial casualties?

Anéeka: That is being said, that there are many casualties of the Federation and the Human military. All I can confirm is the death of an elite Alfa Centauri military operative in Ivory Coast a couple of weeks ago.

Robert: How is the Blue Beam project going? They still want to get it started? And if so, how do they want to do it?

Anéeka: We have information, by observation and by what other races pass to us, that it is at work. Many spirals, cities in clouds and angels seen in the sky are just that, only Blue Beam. But since the year began there has been a lot of traffic of the real Federation ships, secret human ones and of races called neutrals. Governments use conspiracy theories about the Blue Beam as cover to discredit real ship traffic.

Robert: Taking into account one of the Federation's points of view in which they do not see fit for humans to leave Earth because as creators they would take the matrix to other places and create their tulpas and egregores in other worlds putting life in other places at risk, how did the Federation do it in the liberation of Alpha Centauri? How did they get the humans liberated in Phaiton not to manifest their nightmares?

Anéeka: In itself, the planet of Alpha Centauri Phaethon (today Alfrata) was made up of humans extracted from Earth for thousands of years. So even though it's outside this solar system, the Alfrateans' nightmares are human nightmares, the same.
Being already a place of open slavery and not manipulated as on Earth, the Federation decided to enter into military liberation directly.

They no longer manifested their nightmares under direct Federation guidance as in giving them other positive options and teaching them how to control their manifestations. This took several human centuries and they are still in the process of understanding this and transcending it, which is also why they are the most active race today in the so-called liberation of the Earth, a term already abused by the Federation and with which Taygeta disagrees.

Robert: Can you tell us what percentage of humanity is awake? Are we close to 50%?

Anéeka: According to Federation figures, it is now approaching 51%. But the Engan, Taygeta, Urmah and Solatian races doubt that these are true figures, assessing human awakening more at 10%.

1 JUNE

Gosia: Aneeka, could you give some statement about the rocket launch to ISS? Many people ask about that. Although you already told us that it was the theater. It is theater, yes? There is no one on ISS.

Anéeka: What you are told is an official cover for what they are really doing: The launch of satellites en masse to cover Earth with the 5G signal to control everyone with the chip and other related purposes such as Agenda 30.

Gosia: Wow, it didn't occur to me! Makes sense! But are you seeing these satellites being installed?

Anéeka: Yes we are seeing them from here, how are they setting up satellites. They are Elon Musk's SpaceX rockets. It is the Federation itself that is behind those satellites being planted. And that's why they don't want us around. So far they are basically for 5G transmission.

Gosia: But didn't you say they were used for target training for the Federation? That they were shooting at them?

Anéeka: Those that were not under Federation command yes. These ones not because they look the other way. Regressive satellites are launched. But there is a war in itself. They also destroyed an Elon Musk rocket. They say it was a failed test. They lie, it was destroyed with a payload. The Federation will destroy everything they think is not convenient. And it will leave what they think it is. There is a large-scale war here. High federation apart. But at lower levels regressive factions (mirrors of the human mind) are fighting with non-human races. Between Cabals, secret societies and non-human races.

To be specific, an example of war between non-human races at a level below the Federation, would be the confrontations that the very secret human organizations that know and control this call as: Karistus-Anunnaki vs. Vlash Maitré. Karistus is 6D race and above, positive energetics who operate mostly ¨below¨ through positive organic portals (all humans are organic portals) and Anunnaki (they mean the 5D positive races. Taygeta falls under this name here.) Against the reptiles of Earth and tall grays. We have already said what that already worn out name means, Anunnaki. But here I am talking about how people that know about these things in secret societies on Earth classify us.

Gosia: You are also organic portals then, right? All biological suits would be. 3d or 5d, isn't it? At least that's how I perceive it.

Anéeka: That's right, we all are.

Gosia: Another thing. In the video you said... that the Federation is installed on Earth through secret societies, Illuminati etc. But it has been said that this is human creation. So who is Illuminati really made of? Of humans only, or of members / influences of the Federation?

Anéeka: It´s just that you forget that as Swaruu has said, there is no clear border between the human and the non-human. So humans are the Federation itself. They work through them as organic portals too. That is

why everything is so complicated and that is why they ignore the laws of free will, because they believe they have the right to do what they do for this reason.

Gosia: Yes I know. But by humans I mean those who are purely those of Earth, without knowing anything about the Federation. I remake the question: The Illuminati is made up of the members of the Federation who consciously work with the 5D Federation (step downs, walk ins etc.) or pure human WITHOUT knowing the link with the Federation?

Anéeka: It is a mixture of everything. The low Illuminati and Deep State Illuminati are mostly human, but the High Illuminati are pure ET in human suits, organic portals, and the like.

Gosia: Aware of who they are, yes?

Anéeka: Some are not aware, it depends on each one and the degree of involvement. It depends on each one of them.

Gosia: Why then are they interested in doing Satanist rituals and all this? Knowing that you are from the Federation, are you going to want to do this ???

Robert: It gets complicated. Maybe those are that belong to the human creation. Like tulpas and all that.

Gosia: Yes, but they would also be part of the Federation. Or perhaps at this lower Satanist level they are sheer human.

Anéeka: Because the Satanist levels are below the Federation, it is what the Federation wants to control and dissolve. For example, those that are the Illuminati white hats, they are clearly Federation. And they work against the human manifestations that are promoted and accelerated by the regressive Satanist illuminati. And hence the Karistus-Anunnaki vs. Vlash-Maitré.

Gosia: So high Illuminati are not Satanists.

Anéeka: It depends on how we look at it, who are those high illuminati then. It´s just that as there are whites there are blacks and they will be of equal strength. We cannot generalize.

Gosia: Ok, and one thing I don't understand. NWO, the one with chips and vaccines, that is the NWO that the Federation want to impose? Based on which later they wish to install holographic society? Or is all this about chips and vaccines another faction? Because it has been said that the genocide party are Satanists. And Federation is NOT that, as explained above. So logic dictates that the Federation does not want NWO with vaccines and chips then.

Anéeka: Yes, correct. But there is something else here. There are Two (2) NWO. 1 / The horrible Satanist. 2 / The Federation one to liberate the Earth. In both cases it is necessary that there are no countries, a single government, a single religion and a single currency. Whether or not to move them towards holographic society. Taygeta, for example, has only one Government, has no religion but a belief system. And we no longer need currency. But it is still a Globalization.

Although in fact the the Federation is EVERYTHING. It allow factions below it and under its control to fight, Karistus-Anunnaki vs. Vlash-Maitré, for example. Out of "respect" for people's free will, because they want to experience that. But in the end the Federation is above the regressive and positive.

Robert: But the question would be... The Federation is divided or is it dividing?

Anéeka: From certain angles, or low points of view yes it is divided, and that´s why there is war. But from above it is not and only allows friction below because they see it as a natural process of ascension of people, races and souls.

It´s just that I keep on insisting here: Do not look at things from a single angle. From one point of view things are one way, but from another, more expanded point of view, things are different.

Robert: Ok. But it could be said that the "negative" faction would be in the lower layers of the Federation and the positive ones in higher layers? I imagine that it is also part of the ascension of the bases of the Federation. Like a pyramid structure.

Anéeka: Yes, but the regressive factions are no longer called "Federation". And from low positions, from low planes, the Federation fights regressive factions. Fight like shooting and everything. But from above, no.

Gosia: Thanks. I think then that it is not good that the same name NWO is used for both of these lines. Because one can be something positive, but people will already associate it with something bad.

Anéeka: There is a division here. Between the Federation that I see from here, and what Yazhí sees from her point of view. Both are NWO, yes, but as you said that term already has a negative meaning. Although the problem is that planetary unification will be seen by people as more invasive NWO, whether or not it is positive. Another problem is that by implementing positive global unification, if regressives are not cleaned up first, they will use that infrastructure of power and thought to distort positive ideas toward negative regressive NWO. And that's why the War. Because it is something very complex and there is nothing as a reference on Earth to understand this. Planetary unification is the only way for them to stop fighting.

Gosia: Ideally the concept is positive yes.

Anéeka: The problem is that if the regressives use it, then it becomes a big problem. And those regressives are human manifestations. The concept is positive, but if positive beings build it. So this way it can only be a reflection of people.

4 June

Question: HAVE THE TAYGETANS INDICATED HOW TO CHANGE INTO A HOLOGRAPHIC SOCIETY PRACTICALLY?

Anéeka: Not yet, that will be addressed later, or as soon as possible but we have that in mind.

Question: ARE THERE ANY OTHER PLANETS EXPERIENCING 3D?

Anéeka: All planets and places in the Universe hold a 3D aspect, as they also hold any other Density as well. Essentially there are NO densities as that is only a human concept to try to understand how everything works better.
A density depends only on frequency range and of personal frequency range of perception different and particular to each person.

Question: IS THE FEDERATION TRYING TO PREVENT POSITIVE SUCESS?

Anéeka: No. The Federation is only doing what it thinks is best for humans and for them. The problem is that many times the best result, may not bring immediate good and favorable changes for the humans, more like in a medium to long term frame.
And some things may be positive and convenient for some groups of humans but not to others. But in general the Federation is only doing its best as are each one of its members.

Question: HAS THE FEDERATION EXPRESSED THEIR THOUGHT ABOUT THIS REVELATION GIVEN TO US?

Anéeka: Some members see this "revelation" as dangerous because we are giving too many details and too openly. Simply because of the fact that at this point in time, we seem to be the more overt non humans now.

Question: WHO WHERE THE ONES THAT LEFT THE FEDERATION? WHY? WHERE TO? AND WHAT ARE THEY DOING SINCE LEAVING THE FEDERATION?

Anéeka: They didn't "leave" the Federation. They only left this area. They are still members of the Federation. They went back to their home planets. We cannot know for how long, that depends on each one of the races.
They were many who left, I'm only at liberty to mention 2 races among the ones that left:
Engan (Electra Pleiades) and Urmah (Vega Lyra-Avalon).

Question: WHY THEY ALLOW LOGICAL RACES TO BE THE LEADERS ON LYRIAN BASE RACE LIKE US?

Anéeka: We do not hold the answer to that. Perhaps due to internal Federation policies thinking that they hold an easier more "logical" outcome with an objective view. We also seek the answer to that question right now!

Question: IF FREQUENCY COMPATIBILITY ATTRACTED NON-EMOTIONAL RACES TO RUN THE FEDERATION FOR THE AFFAIRS OF THE EARTH, IT WOULD BE THE SAME FOR EMOTIONAL RACES RIGHT ?

Anéeka: Yes, exactly, therefore we are here now also helping. We do not want to discredit logical points of view and of proceeding. All we insist and ask is to consider and include the emotional parts as well. Being that emotional races like ours also see and understand logic within emotions.

Question: WILL THE TAYGETANS CHANGE (INCREASE) THEIR PRESENCE ON EARTH NOW?

Anéeka: At this time, Taygetans will not increase their presence on Earth, as the crew here now, although small, only 32 people, are more than enough to help, taking in account that what we can do is limited by the Federation itself.

Question: DO THE STARSEEDS WORK FOR THE RACES, THE FEDERATION, OR BOTH?

Anéeka: For both and for whoever the Starseeds themselves decide to work with, or for!

Question: HOW OFTEN ARE THE LEADERS OF THE 5D FEDERATION RENOVATED??

Anéeka: They stay in their posts as long as they can fulfill satisfactorily their work, and that depends on the perception and interests of the Federation members and their representatives, depending on what they want, need, or expect. They are not replaced because of a term of service ends, because time works differently here.

Question: IS SWARUU INTERVENING WITH THE 5D FEDERATION THEN TO MOVE TOWARD OUR BENEFIT?

Anéeka: Yes, and in ways we still cannot understand as she is working from higher Densities. But she is definitively working to alter the way 5D Federation works, making them see where they are failing and what else needs to be revised. Swaruu is constantly at work now, and in an independent way. And in favor of Earth and her people.

Question: According to what you at the moment know, what are the best activities and behaviour we starseeds should take in order to facilitate a fast and effective total disclosure?

Anéeka: To stand in your own power, decide what must be disclosed. You must take responsibility over your own decisions, what is important and what is not. That is the essence of your work. The starseeds must decide, be proactive, responsible. Not wait for instructions directly. You are wise. You must unite, not fight among one another, same for the humans. Love and integration are the key.

Question: HOW MUCH IS OUR SOLAR SYSTEM & OUR ASTROLOGICAL SIGNS AFFECTING EVERYONE IN THE 5D & ABOVE?

Anéeka: Everything is very connected. It affects all densities and everyone in them. The answer is that 3D affects 5D and above as much as 5D and above affects 3D. It is all one frequency mass, no real densities. One mass, only personal perception is what determines what density as such you or any one lives and perceives.

Question: FEDERATION, IF YOUR CHILD ASKS FOR POISON YOU WOULDN'T GIVE IT TO THEM, SO WHY GIVE US WARS AND CANCERS AND DEFORMATIES AND PAIN BECAUSE WE MIGHT ASK FOR IT IN A FIT OF RAGE. IT DOESN'T MEAN WE SHOULD HAVE IT.

Anéeka: That is exactly the Federation's point of view. The why they want to control the people, and are having a hard time deciding what to give them and how much. But they also think that if the baby does not experience by itself the ill effects of poison, then it will never learn. That is their point of view, basically. And we are the part of the Federation, among a few others of course, that are saying exactly what you are. That experiencing the poison is not necessary!

Question: IF FEDERATION IS HOLOGRAPHIC WHY THEY DO THAT TO THE TAYGETEAN CREW ???

Anéeka: Because even in a holographic society, when a decision is made, sometimes it cannot be in accordance to the needs and wants, points of view of all, but they decide that one or another way to proceed may be the best plan possible for the situation at hand. Sometimes it must be unanimous others not so.

Question: DO YOU KNOW IF THE 5D FEDERATION COULD BE REPLACED BY OTHER LEADERS WHO ARE MORE IN TUNE WITH THE HUMANS?

Anéeka: Only if the rest of the Federation concludes that replacing them is the best answer to the problem.

Question: Does the planet have an owner? Gaia has nothing to say in this?

Anéeka: Gaia, from our Taygetan understanding, is a conscious being. But as all conscious beings its conscience is the sum of all the other consciousnesses that reside in her. This means that what the collective on Earth wants, is what Gaia wants.

But even in this example, there may be parts within Gaia that do not agree with others creating conflict inside Gaia, so we could say that Gaia is undergoing a heavy psychological change, consciousness change. Gaia in essence is sick. What you do, the people, determines how she will heal. You are her cells, you are her immunity system.
Although officially it cannot have an owner, the closest to being the owner is the Federation itself.

Question: IS COBRA WORKING WITH THE FEDERATION???

Anéeka: Cannot answer about Cobra at this time.

Question: WHERE IS NEGATIVE A.I. IN THIS PYRAMID OF POWER???

Anéeka: Everywhere, as the main tool of control. It is present at every level.
Example; a very poor peasant family in the country side, but owning a TV set and Cell phones.

Question: HOW DO TAYGETANS FEEL ABOUT TAKING OVER THE OPERATIONS FOR CONTACT AND ASSISTING HUMANITY? ALSO EXPANDING THEIR COMMUNICATIONS TEAMS TO HELP. MORE CADETS, SHIPS, FROM ALCYONE AND TAYGETA.

Anéeka: If the Federation would allow it, we could take, or accept, the responsibility. Talking as the crew of, and in, this very ship. We would expand our crew as needed, but we don't see the need to at this point.

Question: THEY SAID SOMETHING ABOUT AN "AI", THE RED QUEEN. Is that ET AI?

Anéeka: Red Queen is only one of many nodes of planetary control, Cabal ruled, A.I. All interconnected. But it is human made. ET A.I: is mostly off planet, onboard ships.

Question: HOW CAN WE BE THEM DOWN HERE IF THEY ARE NON EMOTIONAL? DO WE LOSE OUR EMOTIONS AS WE ASCEND? HOW CAN THAT BE?

Anéeka: Because even the starseeds of non emotional races are in a human avatar that is designed to make all races in human bodies be as one race.
So emotional humans also include starseeds of non emotional races. Also many non-emotional races also are curious and want to know what emotions are and what they can learn from the. This is why many non emotional races enter human bodies. All in search for expansion. Other points of view and all.

But then even as the starseeds of non emotional races, say Andromedan Starseeds, while they are human, they will also have a hard time relating and agreeing with members of their race presently incarnated as original 5D Andromedans.

But some Starseeds of non emotional races also keep their non emotional way of thinking and reacting while they are human. Creating other points of view and another set of problems to resolve.

Question: IF IT'S ALL BASED ON HUMAN ELECTIONS, IF THE BAD OPTION IS VACCINES, WHAT IS THE GOOD CHOICE WE ARE NOT CHOOSING?

Anéeka: Resolving your conflict with one another. Knowing that there are other options to over population that do not include genocide.
Understanding that you all live in a lie, as there is no over population. Only your cities are over populated, and the rest is propaganda. Nature suffers, but not directly because of the people, but of the mindset of the

leaders, that in turn come out of the people.

What you need to see is that you do not need to relay on your governments to take your decisions. They do not have your best interests at hand. Do not take to the streets in protest for anything as that is what the Cabal wants. But do not comply with regressive and invasive impositions on you. Unity among you is key. Simply do not agree, do not comply.

Statement from a viewer: It seems we have to learn to live WITHOUT the federation

Anéeka: No. You must BE the Federation.

Question: Why isn't the moon matrix deactivated?

Anéeka: Because deactivating the Matrix depends on the perception of the people. Not of a device external to the people´s perception. You are the key out of the Matrix. Lunar frequency is no longer important or relevant.
